27. Nonprofit private college credit. Enter smaller of line 23, line 25 or line 26. Enter the amount from this line on Schedule ND-1TC, line 20 -----	27	_____

Instructions

Tax credits are allowed for making charitable contributions to qualifying nonprofit private primary schools, high schools, and colleges located in North Dakota.

A separate credit is allowed for each of the three categories of school—primary school, high school, and college. A taxpayer can qualify for any or all three of the credits by making separate contributions to qualifying schools within one or more of the school categories. The maximum credit allowed in each school category is limited to \$2,500 per tax year. If the allowable credit exceeds your tax liability, the excess is not allowed in any other tax year.

A contribution to a qualifying school may be made by cash or check or by means of a trustee-to-donor transfer of monies from an individual retirement account (IRA) under Internal Revenue Code § 408(d).

For a list of the eligible schools within each of the three categories of schools, see the table on page 3.

To qualify, a contribution must be made directly to, or specifically

designated for the exclusive use of, a qualifying school. The contribution must qualify as a charitable purposes contribution for federal income tax under Internal Revenue Code section 170.

Payments for tuition or to athletic booster, PTO or other groups do not qualify even if they benefit the school in some manner.

School network or organization.

If a contribution is made payable to the account or fund of a school network or organization that governs or benefits multiple schools, the contribution will qualify only if you specifically designate it for the use of a qualifying school, and the network or organization separately accounts for the funds on behalf of that school. You must obtain a statement from the network or organization that identifies the qualifying school and the amount contributed to it. If the qualifying school falls into both the primary school and high school categories, also see the next paragraph.

Schools in the primary school and high school categories. Certain qualifying schools provide education in one or more grades in both the

primary school category (K through 8th grade) and the high school category (9th through 12th grades). If you contribute to one of these schools, you must obtain and attach to your return a statement from the school that identifies the qualifying school and shows the portion of the contribution allocated to each category of school. If you do not attach a statement, one-half of the total contribution will be deemed to have been allocated to each category.

Election. You may elect, on a contribution by contribution basis, to treat a contribution made in the 2025 tax year as having been made in the 2024 tax year if you made the contribution on or before the due date, including extensions, for filing the 2024 Form ND-1. You must attach a statement to your return containing the following:

1. A statement that the election is being made.
2. Name of qualifying school.
3. Date of contribution.
4. Amount of contribution.

Qualified nonprofit private schools

The following lists identify the qualifying schools in each school category.
(Note: These lists are subject to change.)

Primary Schools (Grades K through 8)
